Latest Updates From Your Hope College Communication Honor Society

One Last Goal

Throughout the 2022-23 academic year, Lambda Pi Eta has been working hard to carry out its mission and grow within the Hope College community with a series of goals that a keen eye might've noticed have been the headlines for these newsletters. Since September, the LPH newsletters have had a different theme for each trimester. This was intentional as it signified the growth and progress that LPH has made for the year.

ENGAGEMENT. This theme represents LPH's goal of engaging the student body and becoming a more well-known group. During this time LPH aided in the establishment of the Communication Club which has provided a multitude of opportunities for students majoring or minoring in communication to get engaged and utilize their major/minor even more.

DEVELOPMENT. The development theme signified the halfway point of the year. With Comm Club up and running and a new class of LPH members inducted, this period led to a completed personal goal to grow student engagement with the Communication Department and develop the LPH membership from a handful of students to a solid group of over 30 members!

As the year is coming to a close, LPH wants to finish everything off with one last goal. The theme for the last two newsletters will focus on the goal to increase **INVOLVEMENT**. LPH wants to increase student involvement with the Communication Department and use their majors/minors to benefit Hope College and outside communities.
